 - a. The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b. The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c. The Securities and Exchange Board of India (Depositories and Participants) Regulations, 2018;
 - d. The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations 2018;
 - e. The Securities and Exchange Board of India (The Listing Obligations and Disclosure requirements) Regulations, 2015;

We have also examined compliance with the applicable clauses of the following:

- I. Secretarial Standards of the Institute of Company Secretaries of India,
- II. The Listing Agreements entered into by the Company with NSE-SME Stock Exchange.

During the period under review, the Company has complied with the provisions of the Act, Rules made there under, Regulations, Guidelines etc. mentioned above, to the extent applicable.

Further company being engaged in the business of manufacturing of a wide range of forged and machined components that is used in pipes and tube fittings and other fabrication works, there are no specific applicable laws to the Company, which requires approvals or compliances under the respective laws. However, the list of few of General laws applicable to the Company which are set out in the **Annexure - B**.

We have relied on the representation made by the Company and its officers for system and mechanism framed by the Company for compliances of the said specific acts/rules.

During the Period under review, provisions of the following Acts, Rules, Regulations and Standards were not applicable to the Company;

- I. The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 and circulars/ guidelines/Amendments issued there under; - the Company is not registered as Registrar to an Issue & Share Transfer Agent. However, the Company has appointed Bigshare Services Private Limited as Registrar & Share Transfer Agent as per the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015;
- II. The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 and circulars/ guidelines/Amendments issued there under;
- III. The Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 and circulars/ guidelines/Amendments issued there under;

- IV. The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 (during the year under review not applicable to the Company);
- V. The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018 and circulars/ guidelines/Amendments issued there under; and
- VI. The Foreign Exchange Management Act, 1999 and the rules and regulations made there under to the extent of Foreign Direct Investment, Overseas Direct Investment and External Commercial Borrowings.

We further report that the Board of Directors of the Company is duly constituted with proper balance of Executive Directors, Non-Executive Directors and Independent Directors. There is no change in the composition of the Board of Directors during the period under review.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent in advance, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

As per the minutes of the meetings duly recorded and signed by the chairman, the decisions of the board were unanimous and no dissenting views were required to be recorded.

We further report that there are adequate systems and processes in the company commensurate with the size and operations of the company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the audit period,

- vide Special Resolution passed by the Members at their Extra Ordinary General Meeting 01/2025-26 held on July 29, 2025, through Video Conferencing ("VC") / Other Audio-Visual Means ("OAVM"), The Authorized Share Capital was increased from INR 1,00,000.00 Thousand divided into 10000000 Equity Shares of INR 10.00 each to INR 1,25,000.00 Thousand divided into 12500000 Equity Shares of INR 10.00 each, and consequently Clause 5 of the Memorandum of Association of the Company was altered accordingly;

MANAGEMENT DISCUSSION AND ANALYSIS

KEY MARKET INSIGHTS

The global metal forging market size was valued at USD 70.36 billion in 2025 and is projected to grow from USD 73.43 billion in 2026 to USD 103.35 billion by 2034 at a CAGR of 4.40% during the forecast period. Asia Pacific dominated the metal forging market, with a 44.90% share in 2025. Moreover, The U.S. market is projected to reach USD 13.58 billion by 2026, driven by advanced manufacturing technologies, aerospace production, and automotive demand.

Metal forging is a manufacturing process involving the shaping of metal using localized compressive forces. It is a critical process in producing components with high strength, durability, and precision, which is essential for industries such as automotive, aerospace, energy, and construction. Commonly forged metals include steel, aluminum, titanium, and other alloys, each selected based on specific application requirements.

The global market has witnessed significant growth, driven by increasing industrialization, technological advancements, and the rising demand for high-performance components. Forging can be performed at various temperatures, with the three main types being cold forging, warm forging, and hot forging. Hot forging, done at high temperatures, improves ductility and reduces the risk of fracturing, while cold forging enhances dimensional accuracy and surface finish.

The process involves deforming the metal into a desired shape through controlled force, often requiring repeated strikes or pressure. Forging methods include open-die forging, closed-die forging, and roll forging, each suited for specific applications and scales of production. Open-die forging is suitable for large components and offers flexibility in shapes, while closed-die forging is ideal for high-precision parts and offers better dimensional accuracy.

Forged products are widely used in industries such as automotive, aerospace, construction, and tool manufacturing due to their superior mechanical properties, including enhanced tensile strength and impact resistance. Advances in forging technology, such as precision forging and computer-controlled machinery, have further refined the process, allowing for greater efficiency and reduced material waste. Metal forging continues to be indispensable for producing critical components such as crankshafts, gears, and aircraft parts, ensuring reliability and performance in demanding applications.

METAL FORGING MARKET KEY TAKEAWAYS

Global Market Size & Forecast

2025 Market Size: USD 70.36 Billion

2026 Market Size: USD 73.43 Billion

2034 Forecast Market Size: USD 103.35 Billion

CAGR: 4.40% from 2026–2034

Market Share

Asia Pacific dominated the metal forging market with a market share of 44.90% in 2025.

The carbon steel segment accounted for 36.89% of the market share in the raw material category.

The closed die segment represented 79.20% of the technology category market share.

Key Regional Highlights

Asia Pacific: held the major share of the global market and is set to emerge as the fastest-growing market throughout the forecast period, driven by rapid industrialization, urbanization, infrastructure development, and expanding manufacturing activities.

North America: North America is estimated to witness significant growth, driven by demand from the automotive, aerospace, and mechanical equipment industries, supported by advanced manufacturing technologies and lightweight material adoption.

Europe: Europe is expected to showcase substantial market growth during the forecast period, supported by the automotive, aerospace, railway, and renewable energy industries along with innovation in lightweight forging technologies.

U.S.: The U.S. market is projected to reach USD 13.58 billion by 2026, driven by advanced manufacturing technologies, aerospace production, and automotive demand.

Japan: The Japan market is projected to reach USD 3.64 billion by 2026, supported by its focus on high-precision forging for automotive and aerospace applications.

METAL FORGING MARKET TRENDS

The metal forging industry is rapidly evolving, driven by technological advancements, sustainability goals, and changing market demands. Technological advancements are at the forefront, with automation and Industry 4.0 enabling the integration of IoT, data analytics, and robotics to improve production efficiency and quality control. The development of advanced materials, such as high-strength, lightweight alloys, is meeting the needs of industries such as aerospace and automotive for components with superior performance. Additionally, the use of simulation and modeling tools such as CAD and finite element analysis (FEA) allows manufacturers to optimize forging processes, reduce defects, and minimize material waste.

In line with global environmental priorities, the industry is emphasizing sustainability and green manufacturing by reducing energy consumption, minimizing waste, and adopting recycling practices to create eco-friendly production environments. The use of sustainable materials further aligns forging operations with broader environmental goals.

The growing need for customization and shorter lead times is reshaping manufacturing priorities. Customers increasingly demand forged components tailored to specific applications, pushing manufacturers to adopt more agile and efficient processes to reduce production lead times and meet these expectations.

Global supply chain optimization has also become critical as geopolitical tensions and pandemics expose vulnerabilities in traditional supply chains. Strategies such as diversifying suppliers, nearshoring, and reshoring are gaining traction, ensuring better control over quality, delivery, and resilience against disruptions. These trends highlight the industry's commitment to innovation, sustainability, and adaptability to remain competitive in a dynamic global market.

MARKET DYNAMICS

MARKET DRIVERS

The global market is experiencing significant growth, driven by the rapid expansion of the automotive industry. Forging is a crucial manufacturing process in automotive production, providing high-strength components capable of withstanding intense stress and wear. As the automotive sector grows, with the rising demand for electric vehicles (EVs), hybrid vehicles, and fuel-efficient cars, the adoption of forged metal components is increasing exponentially. The unique advantages of forged parts, including superior mechanical properties, enhanced durability, and cost-effectiveness in mass production, position metal forging as an essential process for automotive manufacturers. Key forged components such as crankshafts, connecting rods, axles, gears, and suspension parts are integral to modern vehicles. These parts must endure high dynamic loads while ensuring safety and longevity. The surge in EV production is a notable growth driver, as lightweight forged aluminium and high-strength steel components help reduce vehicle weight while maintaining structural integrity. Companies such as Bharat Forge, ThyssenKrupp, and Precision Castparts are capitalizing on this trend by developing innovative forged solutions tailored to EVs, where weight reduction is critical for battery efficiency and range optimization.

MARKET RESTRAINTS

Forging and casting are the two most popular metal transformation processes to create parts and components for various end-use industries. These exercises are different from one another and yield products with assorted characteristics. Due to its better tolerance and high level of detail in the casting counterpart, metal forging is susceptible to decay growth. This forging process is limited in terms of the product size and thickness of the metal, whereas metal casting is compatible with a wide range of sizes. As a result, the closed-die forging dies are developed after extensive detail and research. Material selection is limited in this forging, whereas the casting process is compatible with all types of metal. It provides the primary product with few secondary operations, which is another advantage that casting has over the forging process. These factors highly impacted the market growth.

MARKET OPPORTUNITIES

The growing technological advancements to make sustainable forged metal is driving the metal forging market growth. Global megatrends, including rising mobility, urbanization, population & economic development, and increasing climate change, are some prominent factors driving industry growth. Additionally, growing CO2 emissions across the globe have led many metal-forged-producing companies to develop sustainable solutions that enhance durability and reduce environmental impact. For instance, the United Nations (UN) Economic Commission for Europe states that the steel industry is responsible for about 7% to 9% of global anthropogenic carbon emissions. The forging industry uses large volumes of steel and electricity for production, and sustainability efforts are becoming increasingly critical.

Additionally, forged rings are used in shipbuilding applications, including cargo vessels, tankers, and military ships. The rise in globalization has increased the import & export of commodities, creating demand for forged marine components. Rising government regulations to support recycling initiatives, increasing technological advancements in metal forging to make it more reliable, and the growing preference of manufacturers to produce recyclable forged metal are anticipated to drive product consumption globally. Hence, such factors, coupled with growing consumer preference to buy metal forging-based products, will create newer heights for the market.

MARKET CHALLENGES

The market faces several challenges that impact its growth and operations. One major hurdle is the high initial investment required to establish forging facilities and acquire advanced machinery. This significant capital expenditure acts as a barrier for new entrants, limiting competition and innovation. Another pressing issue is the shortage of skilled labor. As forging technologies become more advanced, the demand for a workforce trained in modern techniques, such as automation and simulation, is increasing. The lack of skilled professionals can hinder the adoption of cutting-edge practices and reduce operational efficiency. Additionally, energy consumption is another challenge, particularly in energy-intensive processes such as hot forging. High energy requirements lead to elevated operational costs and raise environmental concerns, pushing manufacturers to explore energy-efficient technologies and sustainable practices.

Maintaining consistent quality is crucial in the forging industry, as products often serve high-stake applications in industries such as aerospace, automotive, and construction. Meeting stringent industry standards requires rigorous quality control measures, which can be resource-intensive and complex. Lastly, trade protectionism poses significant challenges to global supply chains. Rising tariffs, trade barriers, and restrictive policies in key markets disrupt the flow of forged products and raw materials, forcing manufacturers to adapt their strategies, such as diversifying suppliers or focusing on local markets. These challenges highlight the need for strategic investments, workforce development, sustainability initiatives, and adaptable supply chain management to ensure the industry's resilience and competitiveness.

IMPACT OF COVID-19

The COVID-19 pandemic had a detrimental impact on every aspect of the global economy, and the metal forging industry is no exception. Countries such as China, Germany, Japan, the U.S., and the U.K. are among the major forged metal producers across the globe. Forged metals are primarily used across many industrial & commercial sectors.

The global forging sector was affected by the shortage of raw materials, logistic challenges, workforce shortage, and uncertainty, leading to suspension or shutdown of manufacturing facilities. As a result, limited product availability, higher material prices, and delayed project cycles were among the few challenges faced by several stakeholders in the forging sector.

TRADE PROTECTIONISM AND GEOPOLITICAL IMPACT

Trade policies significantly impact the metal forging industry, influencing costs, supply chain strategies, and market access. The imposition of tariffs and duties on imported forged metals is a common measure to protect domestic industries. While this supports local manufacturers, it raises costs for companies reliant on global supply chains, potentially affecting profitability and competitiveness. Import restrictions, such as quotas and licensing requirements, limit the volume of forged products entering certain markets, disrupting international trade dynamics.

Anti-dumping measures are another tool used by countries to safeguard local industries. By imposing duties on foreign manufacturers selling products below fair market value, these measures prevent unfair competition. However, they can also lead to increased costs for businesses that depend on imported materials or components.

These protectionist policies can cause significant disruptions to global supply chains, prompting manufacturers to adapt. Strategies such as local sourcing or diversifying suppliers become essential to mitigate risks and ensure consistent production. Participation in regional trade agreements (e.g., EU, USMCA, ASEAN) plays a crucial role in shaping market access and competitiveness. These agreements facilitate trade by reducing tariffs and streamlining regulations, creating opportunities for manufacturers to expand into new markets.

The interplay of these trade policies highlights the importance of strategic planning and adaptability for forging companies. Balancing compliance with regulations, managing costs, and seizing opportunities in regional markets are critical to navigating the challenges of an increasingly complex global trade environment.

RESEARCH AND DEVELOPMENT (R&D) TRENDS

The metal forging industry is undergoing significant transformations driven by advancements in technology, sustainability initiatives, and evolving market demands. Additive manufacturing is being integrated with traditional forging processes to create complex, lightweight components with improved properties, enabling the production of high-performance parts for aerospace, automotive, and other industries. Simultaneously, smart forging technologies are revolutionizing operations by incorporating sensors and real-time monitoring systems to optimize processes, reduce waste, and enhance product quality.

Research into high-performance alloys plays a crucial role in meeting the requirements of industries that demand materials with exceptional strength, corrosion resistance, and thermal stability. These developments are particularly important for applications in extreme environments. Alongside material innovation, efforts are being directed toward energy-efficient forging processes, with new equipment and methods designed to lower energy consumption and enhance sustainability.

The industry is also witnessing increased collaborations and partnerships between forging companies and technology providers, fostering innovation and expanding market opportunities. To meet the evolving expectations of regulators and customers, manufacturers are aligning with updated standards and regulatory frameworks, ensuring compliance and best practices.

Digital transformation initiatives are reshaping the industry, enabling streamlined manufacturing, better supply chain management, and enhanced customer engagement. Additionally, companies are embracing sustainability initiatives, such as reducing carbon emissions, implementing waste management practices, and adopting circular economy models to achieve long-term environmental goals. These trends underscore the industry's commitment to efficiency, innovation, and sustainability, ensuring its resilience and growth in an increasingly competitive global market.

SEGMENTATION ANALYSIS

By Raw Material

Based on raw material, the market is segmented into carbon steel, alloy steel, stainless steel, aluminum, magnesium, titanium, and others.

The carbon steel segment is projected to dominate the raw material category, accounting for 36.89% of the market share and is anticipated to dominate the market during the forecast period as it is a widely used raw material due to its excellent mechanical properties, cost-effectiveness, and versatility. Carbon steel is preferred for its strength and ability to withstand heavy loads, making it integral in producing components such as gears, shafts, and fasteners. Additionally, the increasing focus on infrastructure development worldwide and the expansion of transportation networks drive its usage. Its recyclability also aligns with global sustainability goals, further boosting demand.

The stainless-steel segment to witness significant growth during the forecast period. The growth is attributed to the increasing demand for applications such as medical instruments, kitchenware, and architectural components. The growth of the pharmaceutical and food & beverage industries boosts the need for forged stainless-steel equipment. Moreover, its use in electric vehicles (EVs) and renewable energy projects adds a new avenue for growth. Rising awareness about hygiene and durability also favors stainless steel in consumer and industrial applications.

The alloy steel segment is expected to grow moderately during the forecast period due to the growth of renewable energy infrastructure, especially in wind and hydroelectric projects. This creates opportunities for alloy steel to forge large and durable components. The aluminum segment is expected to grow considerably during the forecast period due to the rising demand for lightweight components in aviation, propelling the use of forged aluminum.

By Technology

Based on technology, the market is segmented into closed die, open die, and others.

The closed die segment is expected to lead the technology category, representing 79.20% of the total market share and is estimated to record significant growth during the forecast period. Closed-die forging, also known as impression die forging, is experiencing robust growth, driven by its ability to produce highly precise and complex components. The growth of the segment is attributed to the increasing demand for high-strength, lightweight components in industries such as automotive, aerospace, and defense. The automotive sector, in particular, relies heavily on closed-die forging to manufacture critical components such as gears, crankshafts, and connecting rods, as manufacturers prioritize fuel efficiency and performance. Similarly, the aerospace industry benefits from closed-die forging's ability to produce high-performance parts with tight tolerances, making it essential for applications such as turbine blades and aircraft structural components.

The open die segment to witness significant growth during the forecast period owing to the increasing demand for heavy-duty, durable components in industries such as oil and gas, power generation, and construction. Open-die forging is essential for manufacturing large-scale components such as shafts, rollers, and pressure vessels, which are critical for these industries. The ongoing expansion of energy infrastructure projects, including oil exploration and renewable energy installations, has significantly bolstered the demand for open-die forged components.

By End-User

Global Metal Forging Market Share, by End User, 2026

Based on end-user, the market is segmented into automotive, mechanical equipment, aerospace & railways, and others. The automotive end-user segment dominated the global metal forging market with a market share of 67.64% in 2026 and is estimated to record significant growth during the forecast period.

The automotive industry is an important driver of the global market, with increasing demand for lightweight and fuel-efficient vehicles encouraging manufacturers to adopt forged components that offer superior strength-to-weight ratios and durability. The rapid expansion of electric vehicles (EVs) is another key factor, as forged components are essential for producing lightweight battery casings, powertrain systems, and suspension components. Stringent environmental regulations worldwide push automakers to use forged materials to create lighter vehicles, leading to improved fuel efficiency and reduced emissions. Additionally, the growth of ride-sharing and autonomous vehicle sectors has spurred the need for high-performance forged parts to ensure safety and durability in high-usage conditions. The ongoing recovery of the automotive industry post-pandemic and increasing investments in smart manufacturing technologies further bolster the demand for forged components.

The mechanical equipment segment benefits from robust industrialization and the growing adoption of advanced machinery across diverse industries such as agriculture, construction, and energy. Forged components, known for their exceptional strength and resistance to wear and fatigue, are widely used in gears, crankshafts, and connecting rods, ensuring the longevity and reliability of equipment under heavy operational stress. The global push for automation and smart manufacturing has increased the adoption of high-performance forged parts in robotics and industrial machinery. Furthermore, government initiatives aimed at boosting infrastructure development and agricultural productivity drive the demand for heavy-duty equipment, thereby supporting segment growth. The transition to renewable energy sources, such as wind and solar, has also increased the need for forged components in turbines and other energy-generation equipment.

KEY INDUSTRY DEVELOPMENTS

February 2024: Ovako and Tibnor, well-known material manufacturing and distributing companies, announced a strategic partnership to promote low-carbon footprint solutions in steel production. Various industrial players are committing to science-based environmental targets, while legislative representatives are insisting companies decrease their emissions or face the true cost of pollution.

May 2023: Arconic Corporation announced a definitive agreement to be acquired by the Apollo Global Management Inc. fund holders in an all-cash transaction deal with the approximate value of USD 5.2 billion. This deal would provide Arconic with access to one of the world's premier investment firms and deliver substantial value to customers and the end users of their products.

November 2022: Arconic Corporation announced the sale of its 100% of investment in Russian operations to Promishlennii Investitsii LLC, the parent holder of VSMPO-AVISMA Corporation, at a cash deal of USD 230 million. The major aim of this sale was to reduce the increased uncertainty caused by geopolitical crises, and this transaction will support the shareholders' future returns.

July 2022: Patriot Forge announced that it would expand the forging facilities to include a complete rough machining process in its open-die custom forging manufacturing plant. The facility would accommodate open die components weighing up to 50,000 lbs., enabling more efficient and convenient processing to achieve the desired shape.

August 2021: Otto Fuchs KG announced a purchase agreement with ServoDirect technology from Schuler to buy a crank forging press with a capacity of 3,150 tons for its Shenyang, China, location. This deal will aim to produce more aluminum chassis components for automobile customers in China.

Pattech Fitwell Tube Components Limited

Report on the Audit of the Financial Statements

Auditor's Opinion

We have audited the accompanying standalone financial statements of PATTECH FITWELL TUBE COMPONENTS LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss, Cash Flows Statement for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "Standalone financial statements"). The company does not have any branches.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standard prescribed under section 133 of the Act read with the Companies (Accounting Standards) Rules 2021, as amended, ("AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, the Profit and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Emphasis of Matters

We draw attention to following Notes, to the standalone financial statements: a) Note No. 2 regarding allotment of Equity shares on a preferential basis b) Note No. 4 regarding Money Received Against Share Warrants on preferential basis c) Note No. 19 regarding significant concentration of revenue from a single customer d) Note No. 27 regarding related party transactions for purchase of non-agricultural land.

Our opinion is not modified in respect of these matters.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit.

We have determined that there are no Key Audit Matters to communicate in our report, as all the significant matters identified during the audit have been appropriately described in the Emphasis of Matters section.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation and presentation of its report (herein after called as "Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information") which comprises various information required under section 134(3) of the Companies Act 2013 but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances under section 143(3)(i) of the Act. We are also

responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that individually or in aggregate makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and quantitative factors in (i) planning the scope of our audit work and in evaluating the results of our work and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure A" a statement on the matters specified in paragraphs 3 & 4 of the Order to the extent applicable.

TO THE INDEPENDENT AUDITORS' REPORT

Annexure to Independent Auditors' Report for the year ended March 31, 2026

(Referred to in Paragraph 1 under the Heading of "Report on Other Legal and Regulatory Requirements" of our Report of even date)

Based on the audit procedures performed and the information and explanations given to us, we report that:

(i) Property, Plant & Equipment and Intangible Assets

(a) (A) The Company has generally maintained proper records showing full particulars, including situation of Property, Plant and Equipment, except for certain quantitative and descriptive information of Property Plant and Equipment;

(B) The company has no Intangible Assets.

(b) The Company has a program of physical verification to cover all the items of Property, Plant & Equipment in a phased manner which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant & Equipment were physically verified by the management during the year and no material discrepancies were noticed on such verification.

(c) The title deeds of all the immovable properties are held in the name of company as at the Balance Sheet Date except non agricultural land S. No. 14, Old S. No. 4 admeasuring 11891 Sq. Mtr at Moje Puniyad Tal. Dabhoi, Dist. Vadodara, where the Company is still in process of transferring the title deeds of the immovable properties.

(d) The company has not revalued its Property, Plant and Equipment or Intangible Assets or both during the year.

(e) No proceeding have been initiated nor pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(ii) Inventories

a) As informed by the management, the physical verification of inventory has been conducted at reasonable intervals by them. In respect of inventory lying with third parties, these have been physically verified and substantially confirmed by them. In our opinion, the coverage and procedure of such verification is appropriate. No discrepancies were noticed on verification between the physical stocks and book records that were more than 10% in the aggregate of each class of inventory.

b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks on the basis of security of current assets. In our opinion, the quarterly returns or statements comprising stock statements, book debt statements etc. filed by the Company with such a bank are in agreement with the books of account except for the following.

Particulars		Stock	Debtors
Half year ended Sept, 2025	as per Stock Statement submitted	94,079,851	139,117,644
	as per books of account	94,079,846	139,117,644
	Differences	5.00	0.00
Year ended March, 2026	as per Stock Statement submitted	128,942,552	134,738,108.94
	as per books of account	128,942,538	134,738,108.94
	Differences	14.00	0.00

Reason for difference:- Books are not closed on a monthly basis. Audit adjustments/rectifications and certain closing

entries are passed by the management, the aforementioned differences are on account of that.

(iii) Loans given

The Company has made investments, but not provided any guarantee or security or granted any loans or advances in the nature of loans to companies, firms, Limited Liability Partnerships or other parties. Accordingly, reporting under paragraph 3 clause (iii)(a),(b),(c),(d),(e),(f) does not arise.

(iv) Compliance of Sec. 185 & 186

In respect of loans, investments, guarantees and securities, the Company has not granted any loans or advances in the nature of loans, provided any guarantee or security, or made any investments covered under Sections 185 and 186 of the Companies Act, 2013 during the year. Accordingly, reporting under clause 3(iv) of the Order is not applicable.

(v) Public Deposit

The Company has not accepted deposits or amounts which are deemed to be deposits, during the year. Accordingly reporting under paragraph 3 clause (v) does not arise.

(vi) Cost Records

We have broadly reviewed the books of account maintained by the Company pursuant to the rules prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Companies Act, 2013 in respect of manufacture of engineering and fabricated metal products and are of the opinion that prima facie the prescribed accounts and records have been made and maintained. However, we have not carried out a detailed examination of such records. However, the provisions relating to cost audit under Section 148(2) are not applicable to the Company during the year under review.

(vii) Statutory Dues

a) The Company has generally been regular in depositing its undisputed statutory dues including income-tax, Goods & Service tax, Sales-Tax, Service tax, value added tax and cess etc. There are no undisputed dues payable in respect of aforesaid dues, were outstanding as on March 31, 2026 for a period of more than six months from the date they became payable.

b) There are no amounts in respect of income tax, Goods & Service tax, sales tax, Value added tax, Cess, service tax etc. that have not been deposited with the appropriate authorities on account of any dispute.

(viii) There are no transactions / previously unrecorded income which are required to be recorded in the books of accounts have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961.

(ix) Application & Repayment of Loans & Borrowings:

The company has not defaulted in the repayment of loans or other borrowings to any lender during the year.

(a) According to the information and explanations given to us and based on records of the Company examined by us, the Company has not defaulted in repayment of any loans or other borrowings or in the payment of interest thereon to any lender including Bank of Baroda and SIDBI.

(b) According to the information and explanations given to us, the Company has not been declared willful defaulter by any bank or financial institution or other lender.

- (c) According to the information and explanations given to us and to the best of our knowledge and belief, the term loans availed by the Company from Bank of Baroda and SIDBI were prima facie applied by the Company during the year for the purposes for which they were obtained.
- (d) According to the information and explanations given to us, based on records of the Company examined by us and representation obtained from Management, on an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long term purposes by the Company.
- (e) The Company does not have any subsidiary, associates, or joint venture. Accordingly, reporting under clause 3(ix)(e) and (f) of the Order is not applicable to the Company.

(x) Application of funds raised through Public Offer:

- (a) During the year, the Company has made a preferential allotment of 16,40,000 Equity Shares having face value of Rs. 10/- each at a premium of Rs. 67.50/- per Equity Shares and also issued 24,59,300 Fully Convertible Warrants at a upfront subscription money of ₹19.50 per warrant on a preferential basis. In our opinion and according to the information and explanations given to us, the Company has complied with the requirements of Section 42 and Section 62 of the Companies Act, 2013. Further, the funds raised have been utilized for the purposes for which the funds were raised.
- (b) The company has not made any private placement of shares or fully or partly paid convertible debentures during the year. Accordingly, reporting under paragraph 3 clause (x)(b) does not arise.

(xi) Fraud

We have neither come across any instances of fraud by the company or any fraud on the company noticed or reported during the year, nor have been informed of any such instances by the management. Accordingly, reporting under paragraph 3 clause (xi) (b) & (c) does not arise.

- (xii) The company is not a Nidhi Company. Accordingly, reporting under paragraph 3 clause (xii) does not arise.
- (xiii) All the transactions entered into by the Company with the related parties are in compliance with Sections 177 and 188 of the Companies Act, 2013 and the details of such transactions have been disclosed in the financial statements as required by the applicable accounting standards.

(xiv) Internal Audit

In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business. Internal

audit reports for the relevant period are not made available to us on a timely basis. Consequently, we were unable to evaluate the internal audit findings and their potential impact on the testing and operating effectiveness of the internal financial controls over financial reporting.

- (xv) The company has not entered into any non-cash transactions with directors or persons connected with them, during the year. Accordingly, provisions of section 192 of the Act are not applicable.

(xvi) Registration u/s 45-IA of RBI Act

- a) The company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under paragraph 3 clause (xvi)(a),(b)&(c) does not arise.
- b) The Group does not have any CIC as part of the group, Accordingly, reporting under paragraph 3 clause (xvi)(d) does not arise.

- (xvii) The company has not incurred cash losses in the current financial year and in the immediately preceding financial year.

- (xviii) There has been no resignation of the statutory auditors during the year. Accordingly, reporting under paragraph 3 clause (xviii) does not arise.

- (xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements, Our knowledge of the Board of Directors and management plans, and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

(xx) Corporate Social Responsibility

The Company was not having net worth of rupees five hundred crore or more, or turnover of rupees one thousand crore or more or a net profit of rupees five crore or more during the immediately preceding financial year and hence, provisions of Section 135 of the Act are not applicable to the Company during the year. Accordingly, reporting under clause 3(xx) of the Order is not applicable for the year.

TO THE INDEPENDENT AUDITORS' REPORT

Annexure to Independent Auditors' Report for the year ended March 31, 2026

(Referred to in Paragraph 1 (f) under the Heading of "Report on Other Legal and Regulatory Requirements" of our Report of even date)

Report on the Internal Financial Controls with reference to Standalone Financials Statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

Opinion

We have audited the internal financial controls with reference to standalone financial statements of PATTECH FITWELL TUBE COMPONENTS LIMITED (the "Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to standalone financial statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the ICAI and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to standalone financial statements

A company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Significant Accounting Policies and Notes Forming Part of Accounts

A) Basis of Preparation of Financial Statements

These financial statements have been prepared and presented under the Historical cost convention as a going concern. The company follows the mercantile system of accounting recognizing income and expenditure on accrual basis. Accounting policies not referred to specifically are consistent with Generally Accepted Accounting Principles and Accounting Standards. The Company is small and Medium Company (SMC) based on the Companies (Accounting Standard) Rules, 2014 notified and accordingly the company has complied with all Accounting Standards applicable to a SMC.

The Standalone Financial Statements have been presented in Indian Rupees (INR), which is the Company's functional currency. All financial information presented in INR has been rounded off to the nearest two decimals of hundreds.

These financial statements are approved for issue by the Board of Directors on 29.05.2026.

B) Statement of compliance

Company has prepared its financial statements using the existing standards in view of the guidelines that Companies whose securities are listed on SME exchanges and MSME Company, (which does not meet the net worth criteria as prescribed) shall not be required to apply Ind AS. And such companies shall continue to comply with the existing Accounting Standards prescribed in Annexure to the Companies (Accounting Standards) Rules, 2006, unless they choose otherwise.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

C) Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles in India requires Management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from those estimates. Differences between the actual results and estimates are recognised in the period in which the results are known/ materialized.

D) Property, plant and equipment

1. Property Plant and Equipment are stated at cost of acquisition or construction, less accumulated depreciation and impairment losses, if any. Cost includes all expenses related to acquisition and installation of the concerned assets and any attributable cost of bringing the asset to the condition of its intended use excluding Input tax credit. The cost of a property, plant and equipment

comprises its price at a value which have been attributable to them on conversion of partnership firm in to a company.

2. There are no Intangible Assets with the company.

E) Depreciation and Amortisation

Depreciation on property, plant and equipment is provided under the written down value method over the useful lives of assets as prescribed under Part C of Schedule II to the Companies Act, 2013.

F) Capital Work-in-Progress

The cost of the Property, Plant and Equipment not ready for its intended use on such date, is disclosed under capital work-in-progress. Advances paid towards the acquisition of Property, Plant and Equipment, outstanding at each balance sheet date are shown under capital advances.

G) Non-Current Investments

- 1) Classification: Investments that are intended to be held for more than one year from the date of acquisition are classified as Non-Current Investments (Long-Term Investments)
- 2) Valuation Basis: Non-Current Investments are carried at historical cost. Provision for diminution in value is recognized in the Statement of Profit and Loss only if such decline is considered other than temporary in nature as prescribed by Accounting Standard 13 (AS 13)

H) Inventories

Raw materials are valued at lower of actual cost and net realisable value on FIFO basis. Work-in-progress is valued at lower of average cost of production and net realisable value. Cost of production includes cost of material, labour and appropriate factory overheads. Finished goods are valued at lower of average cost of production or net realisable value.

I) Cash and Cash Equivalents

Cash and Cash Equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of twelve months or less.

J) Revenue Recognition

- 1) Sales are recognized, net of taxes, returns and trade discounts, on transfer of significant risks and rewards of ownership to the buyer, which generally coincides with the delivery of goods to customers. Sales include delayed payment charges and Interest.
- 2) Revenue from services is recognised when the provision of services is complete and there is either no unfulfilled obligations on the Company or unfulfilled obligations are inconsequential or perfunctory and will not affect the customer's final acceptance of the services.
- 3) Rent Income, Interest income and Other Income is recognised on its accrual.

K) Expenditure

Expenses are accounted for on accrual basis and provision is made for all known losses and liabilities.

L) Foreign Currency Transactions

Initial Recognition: Transactions denominated in foreign currencies are recorded at the rate prevailing on the date of the transaction

Exchange Differences: All exchange differences arising on settlement and conversion of foreign currency transactions are included in the profit and loss account.

M) Borrowing Cost

Borrowing cost that are attributable to the acquisition or construction of qualifying assets are capitalized as a part of such assets. A qualifying asset is one that necessarily takes substantial period of time to get ready for its intended use. Other borrowing costs are recognised as expense in the period in which they are incurred.

N) Employee Benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, bonus etc., are recognized as an expense at the undiscounted amount in the Profit and Loss Account of the period in which the employee renders the related service. Employee benefits in the form of Employee State Insurance is considered as defined contribution plans and the contributions are charged to the statement of Profit and Loss of the period when the contributions to the respective funds is due. Retirement benefit in the form of Gratuity and unutilized leave balances is considered on its payment.

O) Provision of taxes on income

Tax expense comprises both current and deferred tax in accordance with the requirements of Accounting Standard 22 – Accounting for taxes on Income.

1. Current Tax

Current Tax is measured at the amount expected to be paid to the tax authorities, using the tax rate and tax laws applicable for the year.

2. Deferred Tax

Deferred tax subject to consideration of prudence, is recognised on timing differences; being the difference between taxable incomes and accounting income that originate in one period and are capable of reversal in one or more subsequent periods.

Deferred tax assets on unabsorbed tax losses and tax depreciation are recognised only when there is a virtual certainty of their realisation supported by convincing evidence and on other items when there is

reasonable certainty of realisation. The tax effect is calculated on the accumulated timing differences at the year-end based on the tax rates and laws enacted or substantially enacted on the balance sheet date.

P) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effect of all potentially dilutive equity shares.

Q) Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognized when there is a present obligation as a result of a past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made. No Provision is recognized for:

i. any possible obligation that arises from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or

ii. Any present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or a reliable estimate of the amount of obligation cannot be made.

Note on Money Received against Share Warrants on preferential basis

Authority and Allotment Details.

Pursuant to the provisions of Sections 23(1)(b), 42, 62(1)(c) and other applicable provisions of the Companies Act, 2013, read with the Companies (Prospectus and Allotment of Securities) Rules, 2014, and the Companies (Share Capital and Debentures) Rules, 2014, the Company allotted 24,59,300 Fully Convertible Warrants ("Warrants") on a preferential issue basis for cash on August 13, 2025 ("Date of Allotment").

This allotment was executed following a Special Resolution passed by the members of the Company at the Extra Ordinary General Meeting (EGM) held on July 29, 2025, and the subsequent In-Principle Approval for Listing issued by the National Stock Exchange of India Limited (NSE) on July 29, 2025.

The Warrants were issued at an agreed total issue price of ₹77.50 per Warrant. In accordance with regulatory guidelines, the Company received an upfront subscription amount of ₹19.50 per Warrant (representing approximately 25.16% of the total warrant price).

Conversion and Exchange Window

Each Warrant carries an inherent entitlement to apply for, and be allotted, 1 (one) fully paid-up Equity Share of the Company having a face value of ₹10/- each (at an implicit premium of ₹67.50 per share).

The warrant holders have the right to exercise their option to convert or exchange these Warrants within a maximum period of 18 months from the date of allotment, which ends on February 12, 2027. This option can be exercised in one or more tranches, subject to the payment of the remaining 74.84% balancing consideration, ticking at ₹58.00 per warrant, at the time of conversion.

If a warrant holder fails to exercise the conversion option within this stipulated 18-month tenure, the upfront subscription money of ₹19.50 per warrant will be forfeited by the Company and transferred directly to the Capital Reserve under Reserves and Surplus.

The management has carried out physical verification and measurement of inventories during the year, and such procedures have been observed by us. However, the valuation of inventories, comprising Raw Materials, Work-in-Progress and Finished Goods, is presently determined through an Excel-based/manual system. Further, inventory measurement and valuation involve multiple units of measurement such as kilograms, meters, numbers and tons, which increases the complexity of inventory accounting and valuation processes. The Company may consider transitioning from manual/excel-based records to a computerized inventory management system for streamlining inventory tracking, improving accuracy of inward and outward inventory movements, and ensuring standardization and consistency in units of measurement for inventory valuation purposes.
